- **Other schools**

If a pupil transfers from Shapwick School to another school, their academic records and other data that relates to their health and welfare will be forwarded onto the new school. It is the school's policy that external parties (including parents) may not capture images of staff or pupils during such activities without prior consent.

Location of information and data:

Hard copy data, records, and personal information are stored out of sight and in a locked cupboard. The only exception to this is medical information that may require immediate access during the school day. This will be stored with the school medical coordinator.

Sensitive or personal information and data should not be removed from the school site, however the school acknowledges that some staff may need to transport data between the school and their home in order to access it for work in the evenings and at weekends. This may also apply in cases where staff have offsite meetings, or are on school visits with pupils.

The following guidelines are in place for staff in order to reduce the risk of personal data being compromised:

- Paper copies of data or personal information should not be taken off the school site. If these are misplaced they are easily accessed. If there is no way to avoid taking a paper copy of data off the school site, the information should not be on view in public places, or left unattended under any circumstances.
- Unwanted paper copies of data, sensitive information or pupil files should be shredded. This also applies to handwritten notes if the notes reference any other staff member or pupil by name.
- Care must be taken to ensure that printouts of any personal or sensitive information are not left in printer trays or photocopiers.
- If information is being viewed on a PC, staff must ensure that the window and documents are properly shut down before leaving the computer unattended. Sensitive information should not be viewed on public computers.
- If it is necessary to transport data away from the school, it should be downloaded onto a USB stick. The data should not be transferred from this stick onto any home or public computers. Work should be edited from the USB, and saved onto the USB only.
- USB sticks that staff use must be password protected.

These guidelines are clearly communicated to all school staff, and any person who is found to be intentionally breaching this conduct will be disciplined in line with the seriousness of their misconduct.

Data Disposal:

The school recognises that the secure disposal of redundant data is an integral element to compliance with legal requirements and an area of increased risk.

All data held in any form of media (paper, tape, electronic) shall only be passed to a disposal partner with demonstrable competence in providing secure disposal services.

All data shall be destroyed or eradicated to agreed levels meeting recognised national standards, with confirmation at completion of the disposal process.

Disposal of IT assets holding data shall be in compliance with ICO guidance:

https://ico.org.uk/media/for-organisations/documents/1570/it_asset_disposal_for_organisations.pdf

The school has identified a qualified source for disposal of IT assets and collections. The school also uses PrintWaste to dispose of sensitive data that is no longer required.

Data protection officer (DPO)

A DPO will be appointed in order to:

- Inform and advise the school and its employees about their obligations to comply with the GDPR and other data protection laws.
- Monitor the school's compliance with the GDPR and other laws, including managing internal data protection activities, advising on data protection impact assessments, conducting internal audits, and providing the required training to staff members.

An existing employee will be appointed to the role of DPO provided that their duties are compatible with the duties of the DPO and do not lead to a conflict of interests. Where this is deemed not practical a partnership with another local school(s) will be created to appoint a person from out of school.

The individual appointed as DPO will have training to provide knowledge of data protection law in relation to schools.

The DPO will report to the Headteacher and where necessary to the Chair of Governors.

The DPO will operate independently and will not be dismissed or penalised for performing their task.

Sufficient resources will be provided to the DPO to enable them to meet their GDPR obligations.

Retention Periods

The retention periods for documents are currently being reviewed as part of our GDPR implementation. They will be available from September 2018.
